Life — so they say is but a game and they let it slip away
Life — like the autumn sun should be dying but its only just begun
Like the twilight in the road up ahead they don't see just where we're goin'
And all the secrets in the universe whisper in our ears, and all the
years will come and go
And make us up always up
WE MAY NEVER PASS THIS WAY AGAIN

Dreams — so they say are for the fools and they let them drift away
Peace — like the silent dove should be flying but its only just begun
Like Columbus in the olden days we must gather all our courage
Sail our ships out on the opean sea
Cast away our fears and all the years will come and go
And take us up always up
WE MAY NEVER PASS THIS WAY AGAIN

So I want to laugh while the laughin' is easy
I want to cry if it makes it worth while
I may never pass this way again
Thats why I want it with you
Cause you make me feel like
I'm more than a friend
Like I'm the journey and your the journey's end
I may never pass this way again
Thats why I want it with you — Baby
WE MAY NEVER PASS THIS WAY AGAIN

There's a lady who's sure all that glitters is gold.
And she's buying a Stairway to Heaven.
And when she gets there she knows if the stores are closed.
With a word she can get what she came for.

There's a sign on the wall but she wants to be sure,
Cause you know sometimes words have two meanings
In a tree by the brook there's a songbird
who sings sometimes
all of our thoughts are misgiven.

There's a feeling I get when I look
to the west
and my spirit is crying for leaving
In my thoughts I have seen rings of smoke
through the trees
and the voices of those who stand looking.

And it's whispered that soon if we all
call the tune
then the piper will lead us to reason
and a new day will dawn for those
who stand long
and the forests will echo with laughter

And it makes me wonder.

If there's a bustle in your hedgerow
don't be alarmed now
it's just a soring clean for the May Queen
Yes there are two paths you can go by
but in the long run
there's still time to change the road you're on.

Your head is humming and it won't go – in case you don't know –
The pipers calling you to join him
Dar Lady can you hear the wind blow
and did you know
Your stairway lies on the whispering wind –

And as we wind on down the road
Our shadows taller than our soul
There walks a lady we all know
Who shines while light and want to show
How everything still turns to gold –
and if you listen very hard
the tune will come to you at last
when all are one and one is all
To be a rock and not a roll.

Dedication

For several years now, a quiet intelligent man in spectacles has been occupying a serene position in the Math Department here at Case. Teaching various math courses for the last 17 years, he has helped many students understand arithmetic at all levels. Whether he is adding $2+2$ or discussing the complicated, Pythagorean Theorem, he always explains it in a way that is easily comprehensible. He is respected by his peers for his teaching methods. He has gained the respect of his students by his active involvement in their activities. This is the one thing that we the Class of 74 respect the most about him. He has been helpful to us as a teacher, an advisor, and most of all a friend. It seems only right that this yearbook be dedicated to the man who was instrumental in making our years at Case happy and successful. Mr. Bernier we thank you.

Student Government

The Student Council, under the advisorship of Mr. Conforti, saw it's most active and fruitful year. This years council was not only able to play an active part in the Mass. Association of Student Councils, attending conventions and seminars, but they were also able to be an integral part of this high school by being aware of the needs of the general student body and working for and with them. Perhaps the council's greatest achievement was their ability to present substantial scholarships at the end of the year.

The Academic and Advisory Councils are seperate, yet still a part of the Student Government. Both are fairly new to the school, but have proven to be highly effective. Working along with Faculty members is the job of the Academic Council. The Advisory Council meets with the School Committee to discuss and often debate the wishes of the Student Body. All three councils which compose the school's Student Government have served their designated purposes and proven themselves worthwhile.

Circle Game

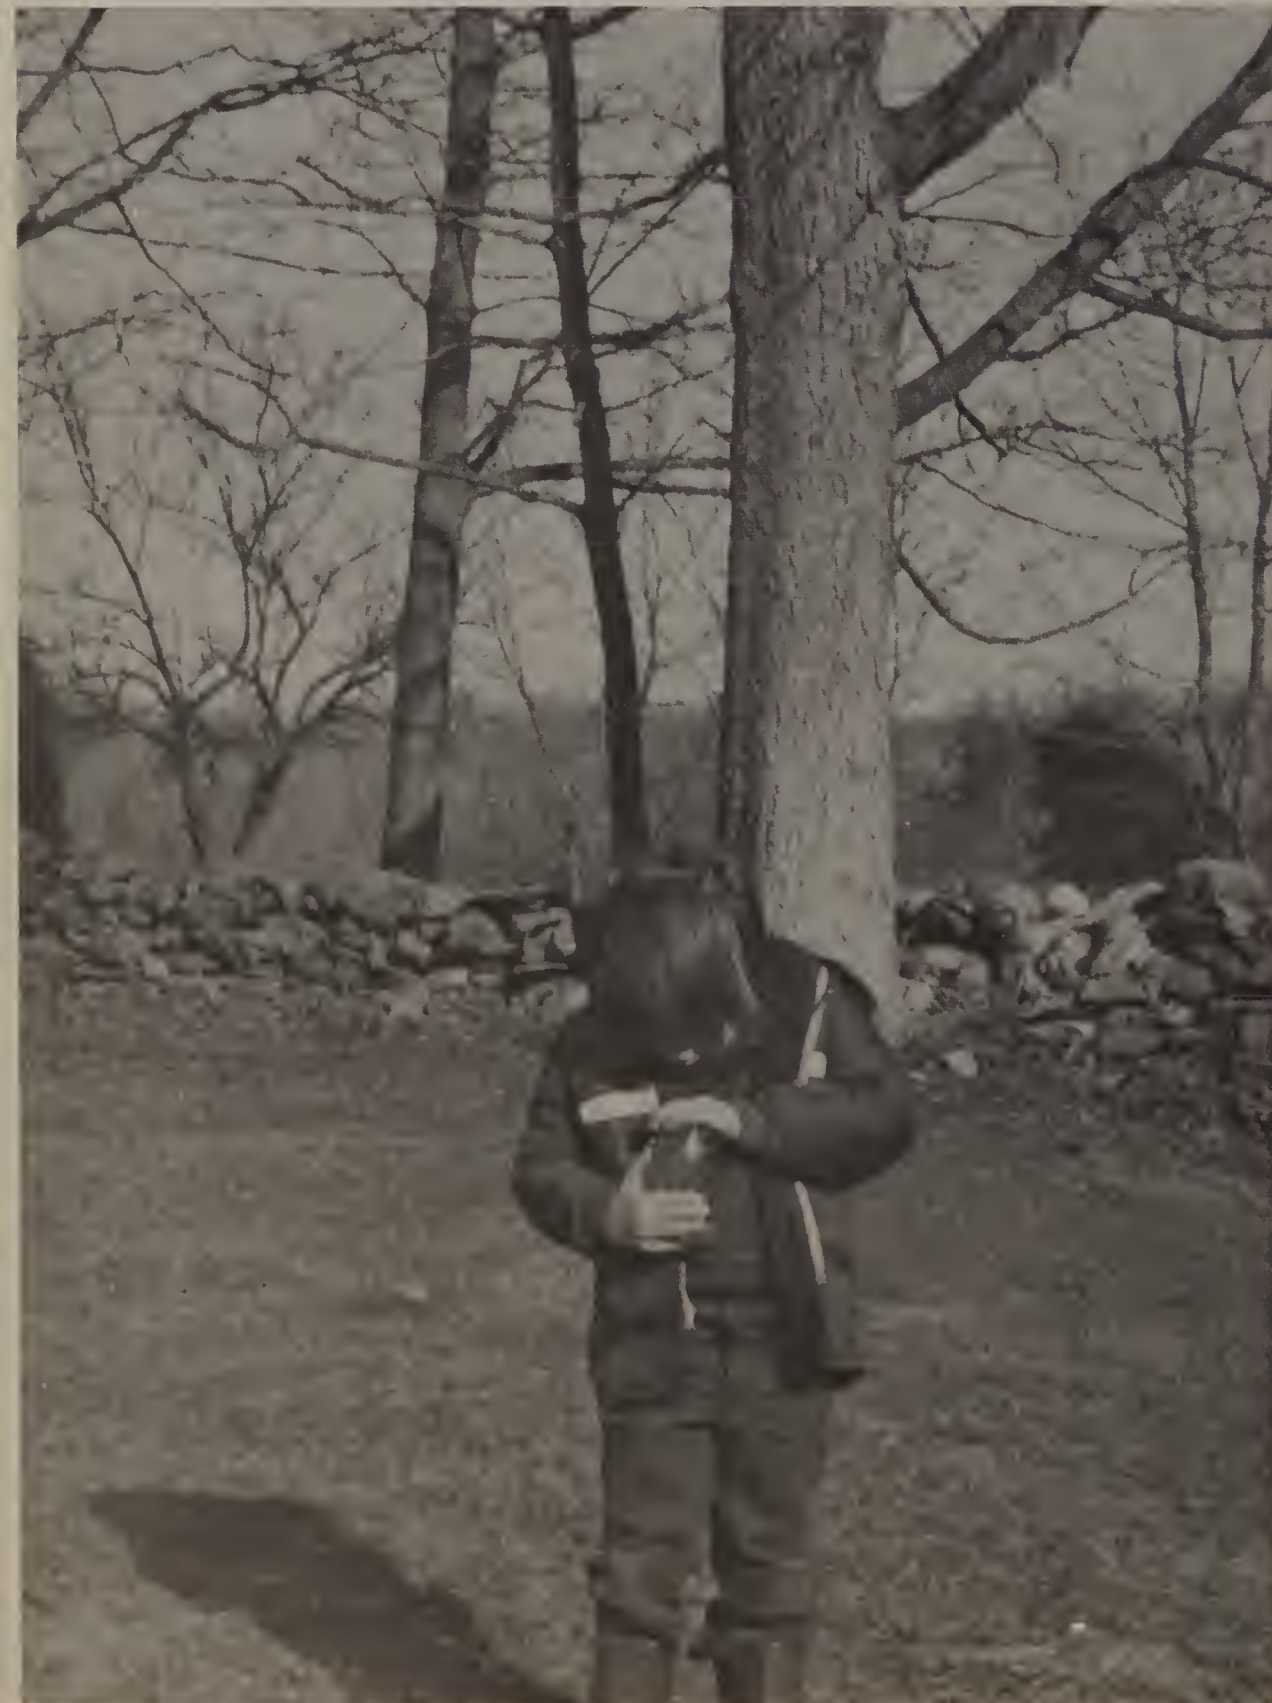

Yesterday a child came out to wonder.

Fearful when the sky was full of thunder.

Caught a dragonfly inside a jar.

And tearful at the falling of a star
Then the child moved ten times round the seasons
Skated over ten clear frozen streams
Words like, "when you're older" must appease him
And promises of someday make his dreams
And the seasons they go round and round . . .

We're captive on the carousel of time
We can't return we can only look behind from
Where we came
And go round and round and round
In the circle game
Sixteen springs and sixteen summers gone now
Cart wheels turn to car wheels through the town
And they tell him, "take your time, it won't be long
now"
Till you drag your feet to slow the circles down
